The DIS-200G Series Industrial Gigabit Smart Managed Switches are equipped with 10 x 10/100/1000BASE-T ports (8 x PoE-enabled on DIS-200G-12PS) and 2 x SFP ports. These switches feature a robust design making them ideal for deployment in industrial and outdoor cabinet, capable of withstanding harsh environments. The DIS-200G Series furthermore integrates advanced management and security functions to provide a complete industrial networking solution.

**Durable and Reliable Design**

The DIS-200G Series switches are housed in a highly resistant IP30-rated metal casing to protect them from harsh environmental conditions and withstand wide temperature range, vibrations and shock. The high electromagnetic compatibility (EMC) protects the DIS-200G Series from unwanted effects when operating in environments with strong electromagnetic interference. Meanwhile, the fanless design extends the life of the DIS-200G Series while also being able to operate in a wider temperature range of up to 65 °C. For increased flexibility, the DIS-200G Series can be mounted on a DIN rail or wall-mounted.

Additionally, the DIS-200G Series features high-capacity 6 kV surge protection on all copper ports to help prevent damage to the switch and connected devices caused by sudden power surges and lightning strikes. The built-in surge protection of up to 6 kV can mitigate the damage to the switch from both indoor and outdoor devices and network connections by absorbing the excess energy while still letting through the amount of power required for the switch to operate normally. This increases network reliability, reduces repair costs, and removes the need for replacement hardware in the event of an electrical surge or lightning strike.
High Redundancy and Reliability

The DIS-200G Series supports ERPS quick failover recovery for ring topologies that ensures minimal downtime and avoids any loss of data in mission-critical deployment settings. Meanwhile, the dual power input allows for a redundant power supply to make sure the device continues to operate in the event of a primary power supply failure.

Surveillance Traffic Optimisation

The DIS-200G Series supports the Auto-Surveillance VLAN (ASV) feature. This automatically detects surveillance devices and puts them into a dedicated surveillance VLAN, segmenting this type of traffic from the rest of the network. This provides increased security of surveillance data, and gives the traffic a higher priority through the switch, minimising the disruption or delays on video streams. A single switch can be used for both surveillance and data networks, removing the need for dedicated surveillance hardware while simultaneously reducing maintenance costs.

Easy Troubleshooting

The DIS-200G Series features loopback detection and cable diagnostics to help network administrators find and solve network problems quickly and easily. Loopback detection is used to detect loops created by a specific port and automatically shuts down the affected port. Cable diagnostics helps network administrators quickly examine the quality of the copper cables, recognize the cable type, and detect cable errors.

Power over Ethernet Support

The DIS-200G-12PS SW is PoE-ready with a total PoE budget of 240 W, capable of supplying up to 30 W of power per port to connected PoE-enabled devices. This effectively reduces deployment times, reduces cable clutter, and eliminates the need for dedicated power supplies to allow PoE-devices to be installed in remote locations.
## Technical Specifications

### Ethernet

### Port Functions

- IEEE 802.3 for Ethernet
- IEEE 802.3u for Fast Ethernet
- IEEE 802.3ab for Gigabit Ethernet
- IEEE 802.3z for Gigabit fibre
- IEEE 802.3af/at Power over Ethernet (DIS-200G-12PS)
- IEEE 802.3az-compliant

### Media Interface Exchange

- Auto-MDI/MDIX adjustment for all twisted pair ports

### Performance

- **Switching Capacity**: 24 Gbps
- **Maximum Forwarding Rate**: 17.85 Mpps
- **MAC Address Table Size**: Up to 8K entries
- **Transmission Method**: Store-and-forward

### PoE

- **PoE Standards**: IEEE 802.3af/at
- **PoE Capable Ports**: Ports 1 to 8
- **PoE Power Budget**: Max. 240 W

### Physical

- **Diagnostic LEDs**: SYS, ALM, PWR1/2/3, Link/Activity/Speed
- **Power Input**: 12 to 48 V DC terminal block dual input, 12 V DC 4-pin DIN single power input
- **Power Consumptions**: Maximum: 10.26 W, Standby: 5.94 W
- **Power Input**: 48 to 54 V DC terminal block dual input, 54 V DC 4-pin DIN single power input
- **Power Consumptions**: Maximum: 260 W (PoE on), Maximum: 10.8 W (PoE off), Standby: 7.02 W
- **Alarm Relay**: 1 A at 24 V
- **Heat Dissipation**: 35.01 BTU/hr
- **Heat Dissipation**: 887.16 BTU/hr (PoE on), 36.85 BTU/hr (PoE off)
- **Weight**: 1.63 kg (3.59 lbs)
- **Weight**: 1.76 kg (3.88 lbs)
- **Dimensions**: 210 x 171.2 x 53 mm
- **Dimensions**: 210 x 171.2 x 53 mm
- **Ventilation**: Fanless
- **Operating Temperature**: -40 to 65 °C (-40 to 149 °F)
- **Storage Temperature**: -40 to 85 °C (-40 to 185 °F)
- **Operating Humidity**: 0% to 95% RH, non-condensing
- **Storage Humidity**: 0% to 95% RH, non-condensing
- **Material**: IP30-rated metal casing
- **Installation**: DIN rail/wall mountable
- **MTBF**: 276,773 hours
- **MTBF**: 213,112 hours
- **Certifications**: CE, FCC, BSMI
- **Safety**: UL60950-1
- **EMI**: CISPR 22, FCC Part 15B Class A
- **EMS**: EN 61000-4-2 ESD, EN 61000-4-3 RS, EN 61000-4-4 EFT, EN 61000-4-5, EN 61000-4-6 CS, EN 61000-4-8
### Software Features

| VLAN | • IEEE 802.1Q tagged VLAN  
|      | • Port-based VLAN  
|      | • Auto-Surveillance VLAN 2.0 (ASV 2.0)  
|      | • Voice VLAN  
|      | • Asymmetric VLAN  
|      | • VLAN group  
|      | • Supports 128 static VLAN groups  
|      | • Max. 4094 VIDs  
|      | • GVRP  
| L2 Features | • Flow Control  
|             | • IEEE 802.3x Flow Control  
|             | • HDL Blocking Prevention  
|             | • Jumbo frames up to 9600 bytes  
|             | • IGMP Snooping  
|             | • IGMP v1/v2/v3  
|             | • Supports up to 256 IGMP snooping groups (shared with MLD snooping)  
|             | • IGMP Snooping Querier  
|             | • MLD Snooping  
|             | • MLD snooping v1/v2  
|             | • Supports up to 256 MLD snooping groups (shared with IGMP snooping)  
|             | • MLD Snooping Querier  
|             | • IEEE 802.3ad Link Aggregation  
|             | • Supports 6 groups per device, 8 ports per group  
|             | • Ethernet Ring Protection Switching (ERPS)  
|             | • G.8032 ERPSv1 single ring  
|             | • Loopback detection  
|             | • LLDP  
|             | • Port mirroring  
|             | • One-to-One  
|             | • Many-to-One  
|             | • Statistics  
|             | • Tx Ok  
|             | • Tx Error  
|             | • Rx Ok  
|             | • Rx Error  
|             | • Spanning Tree Protocol (STP)  
|             | • IEEE 802.1D STP  
|             | • IEEE 802.1w RSTP  
|             | • IEEE 802.1s MSTP  
| Quality of Service (QoS) | • IEEE 802.1p Quality of Service (QoS)  
|             | • 4 queues per port  
|             | • Queue handling  
|             | • Strict Priority Queue (SPQ)  
|             | • Weighted Round Robin (WRR)  
|             | • Port-based bandwidth control (rate limiting)  
|             | • Ingress: 100 kbps  
| Security | • D-Link Safeguard  
|          | • Traffic segmentation  
|          | • Broadcast/Multicast/Unknown Unicast Storm Control  
|          | • DoS attack prevention  
|          | • SSL  
|          | • SSH  
|          | • Port security  
| AAA | • IEEE 802.1x Port-based access control  
|     | • Web-based access control  
|     | • RADIUS  
| Management | • Web-based UI (supports IPv4/IPv6)  
|           | • Client-based D-Link Network Assistant (DNA)  
|           | • Industry-standard CLI  
|           | • SNMP v1/v2c/v3  
|           | • SNMP trap  
|           | • Telnet server  
|           | • System Log  
|           | • DHCP client  
|           | • TFTP client  
|           | • LLDP  
|           | • D-Link Discovery Protocol (DDP)  
|           | • Dual images  
|           | • Dual configurations  
| OAM | • Cable diagnostics  
|     | • Optical transceiver Digital Diagnostics Monitoring (DDM)  
| Green Technology | • Power saving by:  
|                 | • Link status detection

</table>
| DIS-S301SX | 1-port Mini-GBIC SFP to 1000BaseSX Multi-Mode Fibre Transceiver | - up to 550 m  
- -40~85°C operating temperature |
| DIS-S302SX | 1-port Mini-GBIC SFP to 1000BaseSX Multi-Mode Fibre Transceiver | - up to 2 km  
- -40~85°C operating temperature |
| DIS-S310LX | 1-port Mini-GBIC SFP to 1000BaseLX Single-Mode Fibre Transceiver | - up to 10 km  
- -40~85°C operating temperature |

### Power Supplies

<table>
<thead>
<tr>
<th>Model</th>
<th>Description</th>
<th>Specifications</th>

</thead>
</table>
| DIS-H30-24 | 30W 24VDC Ultra Slim DIN Rail PSU               | - Input: 85 ~ 264VAC  
- Output: 21.6 ~ 29V DC  
- Din rail TS-35/7.5 or 15 mountable  
- -30~70°C operating temperature |
| DIS-H60-24 | 60W 24VDC Ultra Slim DIN Rail PSU               | - Input: 85 ~ 264VAC  
- Output: 21.6 ~ 29V DC  
- Din rail TS-35/7.5 or 15 mountable  
- -30~70°C operating temperature |
| DIS-N240-48 | 240W 48VDC DIN Rail PSU                       | - Input: 90 ~ 264VAC  
- Output: 48 ~ 55V DC  
- Din rail TS-35/7.5 or 15 mountable  
- -20~70°C operating temperature |
| DIS-N480-48 | 480W 48VDC DIN Rail PSU                       | - Input: 90 ~ 264VAC  
- Output: 48 ~ 55V DC  
- Din rail TS-35/7.5 or 15 mountable  
- -20~70°C operating temperature |
