

Latest IP surveillance technology to monitor and protect the warehouse of top IT Distributor

EXECUTIVE SUMMARY

Customer	Esprinet
Industry	Distribution
Location	Spain
Challenge	Video surveillance
Solution	DNR-326, DCS-7413, DCS-7513, DCS-6113
Results	A complete surveillance solution, covering nearly 40,000m ² floor space
Project Revenue	€ 183,300

Esprinet Ibérica is a subsidiary of Esprinet S.p.A. engaged in the distribution of information technology and consumer electronic products in Spain. The 2017 turnover of € 3.2 billion places Esprinet S.p.A amongst the top 10 distributors worldwide. Thanks to a business model based on the coexistence of different sales channels tailored to the specific characteristics of 36.000 reseller clients, Esprinet markets about 700 brands and over 57,000 products available in 130,000 m2 of managed warehouses.

Challenge

To deliver a digital, IP-based video surveillance system able to monitor an area of considerable size, within a defined budget. The system needs to integrate with Esprinet's existing data network and provide 24/7 continuous monitoring of entrances, parking and loading platforms to protect buildings, employees and customers. To keep a stringent control of processes and avoid any possible theft or theft of material.

Solution

D-Link's provided an advanced video surveillance solutions to monitor both the "Cash & Carry" of Alcobendas and the wholesaler's warehouse in Zaragoza.

- The "Cash & Carry" of Esprinet, located in Alcobendas, has 895m² floor space with more than 4,000 product lines. To protect the facilities, 4 units of the DNR-326

network video recorder, 5 units of the DCS-7413 outdoor bullet camera and 29 units of the DCS-6113 indoor dome camera were installed. This provided 24/7 video surveillance and protection with the flexibility of multi-site access to the system.

- The Esprinet warehouse, located in the Plaza de Zaragoza logistics platform, has 38,520m² of floor space and supplying over 12,000 resellers. This was equipped with a complete video surveillance solution from D-Link, to protect the entire warehouse as well as supervise logistics processes. A total of 144 units of the DCS-7513 bullet camera was installed. Thanks to the Full HD quality, its powerful Zoom, night vision, IP-68 outdoor certification, P-Iris support, varifocal lens and WDR (Wide Dynamic Range), this camera is the ideal solution to give the best performance in this type of critical environment.

Result

The solution from D-Link fulfilled the requirements of Esprinet. As of the high quality images the cameras provided, all of them supports Power-over-Ethernet which significantly increased the flexibility of installation. Local storage on the camera as well as alert and notification when something abnormal happens, allows Esprinet to monitor and record their facilities easily and reliably.

"As a distributor of the D-Link's entire product portfolio, we have complete confidence with the products they offer. D-Link's solution was chosen for our video surveillance requirement for the excellent performance offered in multiple installations carried out by our partners."
