New product **DCS-2100G**

D-Link 54Mbps Wireless IP Surveillance Camera

The D-Link SECURICAM Network DCS-2100G Wireless Internet Camera is designed for office and home users who want a full-featured surveillance system that provides remote, high quality video and audio monitoring over the Internet.

The DCS-2100G Wireless Internet Camera connects directly to a wireless 11b/11g or 10/100 Ethernet broadband network to enable remote viewing and management of the camera from anywhere in the world using Internet Explorer 6. With its own IP address and built-in web server, you can place the DCS-2100G anywhere on the network without requiring a direct connection to a PC.

Full-featured software is included to enhance the monitoring and management of the DCS-2100G. You can view images from up to 16 cameras at once, set up manual or scheduled video/audio recording to your hard drive, and set the camera to record or send e-mail alerts whenever the motion sensor is triggered.

The DCS-2100G Wireless Internet Camera can be used in a home or office environment. With simple installation procedures and a built-in web-based interface, the DCS-2100G offers easy integration into your network environment.
