

Greenhouse Gas Verification Statement

The inventory of Greenhouse Gas emissions in year 2008 of

D-Link Corporation

No. 289, Sinhu 3rd. Rd., Neihu District,
Taipei City, Taiwan

has been verified in accordance with ISO 14064-3:2006 as
meeting the requirements of

ISO 14064-1:2006

Direct emissions
2.18 tonnes of CO₂e
Energy indirect emissions
1845.42 tonnes of CO₂e
Direct emissions and energy indirect emissions
1847.60 tonnes of CO₂e

Authorized by

Dennis Yang

Chief Operation Officer of Eastern Asia

Date: 27 September 2010

Statement TW10/00172GG, continued

SGS has been contracted by D-Link Corporation (hereinafter referred to as "D-Link"), No. 289, Sinhu 3rd. Rd., Neihu District, Taipei City, Taiwan, for the verification of direct and indirect Greenhouse Gas Emissions in accordance with

ISO 14064-3: 2006

as provided by D-Link Corporation (hereinafter referred to as "D-Link"), No. 289, Sinhu 3rd. Rd., Neihu District, Taipei City, Taiwan, in the GHG Assertion in the form of GHG report covering GHG emissions of the period 01 January 2008 to 31 December 2008.

Roles and responsibilities

The management of D-Link is responsible for the organization's GHG information system, the development and maintenance of records and reporting procedures in accordance with that system, including the calculation and determination of GHG emissions information and the reported GHG emissions.

It is SGS's responsibility to express an independent GHG verification opinion on the GHG emissions as provided in the GHG Assertion for the period 01 January 2008 to 31 December 2008.

SGS conducted a third party verification of the provided GHG assertion against the principles of ISO 14064-1:2006 and ISO 14064-3:2006 in the period 06 August 2010 to 23 August 2010. The verification was based on the verification scope, objectives and criteria as agreed between D-Link and SGS on 25 May 2010.

Level of Assurance

The level of assurance agreed is that of reasonable assurance.

Scope

D-Link has commissioned an independent verification by SGS Taiwan of reported GHG emissions of D-Link arising from Design, Development & Marketing of Wired and Wireless Network Products, Including Hardware, Software and Services of LAN & WAN Products, Broadband Access Products, Home Networking Products, IP Telephony Products, Network Content Server / Storage Server, Networked Multimedia Devices, Network Security Devices, Network Cameras, USB Devices and Other Networks, Communication related Products. activities, to establish conformance with ISO 14064 principles within the scope of the verification as outlined below.

Statement TW10/00172GG, continued

This engagement covers verification of emission from anthropogenic sources of greenhouse gases included within the organization's boundary and is based on ISO 14064-3:2006.

- Title or description activities: GHG verification for D-Link
- Location/boundary of the activities:
No. 289, Sinhu 3rd. Rd., Neihu District, Taipei City, Taiwan
- Physical infrastructure, activities, technologies and processes of the organization:
Design, Development & Marketing of Wired and Wireless Network Products, Including Hardware, Software and Services of LAN & WAN Products, Broadband Access Products, Home Networking Products, IP Telephony Products, Network Content Server / Storage Server, Networked Multimedia Devices, Network Security Devices, Network Cameras, USB Devices and Other Networks, Communication related Products.
- GHG sources, sinks and/or reservoirs included:
Sources as presented in the inventory spreadsheet provided by D-Link
- Types of GHGs included: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆
- Directed actions: NA
- GHG information for the following period was verified: 01 January 2008 to 31 December 2008.
- Intended user of the verification statement: Private

Objective

The purposes of this verification exercise are, by review of objective evidence, to independently review:

- Whether the GHG emissions are as declared by the organization's GHG assertion
- The data reported are accurate, complete, consistent, transparent and free of material error or omission.

Criteria

Criteria against which the verification assessment is undertaken are the principles of ISO 14064 and IPCC 2007 GWP values.

Materiality

The materiality required of the verification was considered by SGS to 5%, based on the needs of the intended user of the GHG Assertion.

Statement TW10/00172GG, continued

Conclusion

D-Link provided the GHG assertion based on the requirements of ISO14064-1:2006. The GHG information for the period 01 January 2008 to 31 December 2008 disclosing emissions of One Thousand, Eight Hundred and Forty-Eight (1,848) metric tonnes of CO₂ equivalent are verified by SGS to a reasonable level of assurance, consistent with the agreed verification scope, objectives and criteria.

SGS's approach is risk-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes assessment, on a test basis, of evidence relevant to the amounts and disclosures in relation to the organization's reported GHG emissions.

We planned and performed our work to obtain the information, explanations and evidence that we considered necessary to provide a reasonable level of assurance that the GHG emissions for the period 01 January 2008 to 31 December 2008 are fairly stated.

We conducted our verification with regard to the GHG assertion of D-Link which included assessment of GHG information system, monitoring and reporting plan/protocol. This assessment included the collection of evidence supporting the reported data, and checking whether the provisions of the protocol reference, were consistently and appropriately applied.

In SGS's opinion the presented GHG assertion

- is materially correct and is a fair representation of the GHG data and information, and
- is prepared in accordance with ISO14064-1:2006 on GHG quantification, monitoring and reporting.

This statement shall be interpreted with the GHG assertion of D-Link as a whole.

Note: This Statement is issued, on behalf of Client, by SGS Taiwan Ltd. ("SGS") under its General Conditions for Green Gas Verification Services available at http://www.sgs.com/terms_and_conditions.htm. The findings recorded hereon are based upon an audit performed by SGS. A full copy of this statement, the findings and the supporting GHG Assertion may be consulted at D-Link, No. 289, Sinhu 3rd. Rd., Neihu District, Taipei City, Taiwan. This Statement does not relieve Client from compliance with any bylaws, federal, national or regional acts and regulations or with any guidelines issued pursuant to such regulations. Stipulations to the contrary are not binding on SGS and SGS shall have no responsibility vis-à-vis parties other than its Client.
