

MAINSTAGE™ TV ADAPTER FOR INTEL® WIRELESS DISPLAY

WATCH IT ALL ON YOUR HDTV

Wirelessly project any media from your Intel® WiDi-enabled system to your HDTV

STUNNING HIGH-DEFINITION VIDEO AND AUDIO

Experience Full HD video up to 1080p and 5.1 channel digital surround sound for an amazing picture and immersive audio

PLUG & PLAY

Quickly connect your laptop to your TV with the software already built into your laptop; no configuration is required

SEE IT ALL ON THE BIG SCREEN

D-Link's DHD-131 MainStage™ TV Adapter for Intel® Wireless Display wirelessly streams your Intel® WiDi-enabled laptop's display and sound to an HDTV. It lets you view content such as photos and movies on a bigger screen with friends and family, without needing to connect your notebook to the TV with cables. Surf the web or play your digital media on your HDTV, all from the comfort of your couch. This second generation WiDi adapter supports most video formats, Full HD 1080p resolution, fast wireless speeds of up to 300 Mbps, and 5.1 channel speaker output for excellent sound quality.

STUNNING AUDIO AND VIDEO

Using H.264 compression technology, the MainStage™ is capable of effortlessly streaming 1080p video at 30 fps and supports Blu-ray and DVD HDCP, giving you the best picture possible. It also supports 5.1 channel surround sound and has an optical S/PDIF out port for connection to a stereo system, giving you the full home theater experience. Now you can play content from your laptop on the big screen with a crisp high-definition picture and crystal clear sound.

HIGH-SPEED WIRELESS FOR SMOOTH VIDEO

The MainStage™ uses built-in dual-band Wireless N to connect to your Intel® WiDi-enabled laptop, and directly connects to your laptop to create a high-speed connection for smooth, skip-free video and audio. Sit back and relax from the comfort of your couch as you stream your laptop's display without cables.

QUICK SETUP AND EASY TO USE

Setting up the MainStage™ is easy; just take any Intel® WiDi-enabled laptop with one of Intel's new Core series CPUs and run the built-in software to automatically connect to the MainStage™, which connects to your HDTV or any display. Your laptop screen will be instantly displayed on your TV screen without the need for any cables or additional configuration, so you can get up and running in no time.

WHAT THIS PRODUCT DOES

Designed to work with Intel's Wireless Display Technology, the DHD-131 MainStage™ TV Adapter for Intel® Wireless Display enables you to view your laptop screen on an HDTV, wirelessly. The MainStage™ receives Wi-Fi signals from your laptop, translates the signals into an image, and displays the image on your TV. Experience your favorite videos, movies, videos, pictures, music, online shows, and more from your computer on your HDTV.
