Wireless ADSL Router
With Built-in 802.11g Wireless LAN & 4-Port Switch

The DSL-G604T is an ADSL Router designed for office use. This router lets you quickly and easily connect to high-speed broadband Internet and share your ADSL line. With a built-in ADSL interface, 802.11g high-speed wireless LAN, 4 10/100BASE-TX Ethernet switch ports and advanced router functions, this device gives your business a convenient and cost-effective way to install a secure, fast network with bottleneck-free link to the outside world.

Simplified Broadband Internet Connection
With this router, you can easily connect to your ADSL broadband line for Internet access in your office or at home. This device automatically creates an IP number and assigns for each user, simplifying everyone's logon operation.

Built-in ADSL Interface and Ethernet Switch Ports
A standard-based ADSL modem in built into this router, making connection to the Internet a breeze. The router also incorporates four 10/100Mbps Ethernet switch ports, providing ready connection for workstations and servers, while saving you the cost and trouble of installing a separate Ethernet switch.

Built-in High-Speed Wireless LAN
The router also provides the latest standard 802.11g high-speed wireless LAN for ready connection to wireless users. With speeds up to 54Mbps and real throughput up to 8 times faster than that of 802.11b, the new wireless LAN provides the performance necessary for bandwidth intensive applications. In addition, it is also compatible with existing 802.11b and 802.11b+, providing you with the ability to communicate with all wireless devices within the 2.4GHz frequency band.

Network Security
The router provides NAT protection for your office and home users from any Internet intruders and hackers, plus VPN pass-through for extra security. It also blocks and redirects certain ports to limit the services that outside users can access your network. Virtual server mapping is used to re-task services to multiple servers. This router can be set to allow separate FTP, Web, and Multiplayer game servers to share the same Internet-visible IP address while still protecting your servers and workstations from hackers.

DMZ Host to Open Public Domain
The router supports constricted DMZ to redirect unknown packets to a dedicated server/PC behind the router, enabling a client (such as a Web server) to fully expose it to the Internet and ensure complete Internet application compatibility. This allows you to set up web sites and e-commerce business from your office while maintaining protection for the rest of your office LAN.

Standards & Features

- High-speed Internet access
- Built-in ADSL interface with widest range of DSLAM interoperability
- ADSL (ANSI T1.413 issue 2, G.dmt Annex A, G.lite Annex A) compliant
- Built-in 4 10/100BASE-TX Fast Ethernet switch ports
- Built-in high-speed 802.11g wireless LAN
- Virtual Private Network (VPN) pass-through support
- DMZ and Virtual Server Mapping support
- Web-based configuration
DSL-G604T (v.A1)

Technical Specifications

Router

Interface
- 1 RJ-11 ADSL port
- 4 RJ-45 10/100BASE-TX Fast Ethernet LAN switch ports with auto MDI/MDIX
- 802.11g wireless LAN (backward 802.11b compatible)

Routed Packet Type
- IP packets

Routing Protocols & Methods
- RIP v1/v2 and static routing
- Dynamic routing

DHCP Support
- DHCP server (for automatic IP assignment)
- DHCP Client
- DHCP Relay

Security
- VPN support: PPTP/L2TP/IPSec pass-through
- Network Address/Port translation (NAPT)
- Authentication: PAP and CHAP
- DoS (UDP/TCP), detection of known attacks
- ID password authentication

Configuration & Network Management
- DHCP Relay
- DHCP Client
- DHCP server (for automatic IP assignment)
- Dynamic routing
- RIP v1/v2 and static routing

IP packets

Routed Packet Type
- 802.11g wireless LAN (backward 802.11b compatible)
- 1 RJ-11 ADSL port

Interface
- Compliant with G.dmt (ITU G.992.1) Annex A over PSTN line
- WLAN
- Ethernet Link/Act
- ADSL Link/Act
- Status (system)
- Power

Statistics Monitoring
- Factory reset
- Support UPnP 1.0
- System logs
- TFTP for firmware upgrade
- HTTP server for web-based management

Configuration & Network Management
- ID password authentication
- Classical IP over ATM
- Bridged Ethernet over ATM

Bridged/PPP Support
- ATM/ADSL
- ATM signaling: UNI3.0, 3.1 and 4.0
- ATM traffic shaping: UBR, CBR, VBR

Built-in ADSL Modem

WAN ADSL Line Interface
- Compliant with G.dmt (ITU G.992.1) Annex A over PSTN line
- Compliant with G.lite (ITU G.992.2) Annex A over PSTN line
- Compliant with ANSI T1.413 issue 2

Data Rate (ADSL Standards)
- T1.413/G.dmt, downstream: up to 5Mbps, upstream: up to 1Mbps
- G.lite, downstream: up to 1.5Mbps, upstream: up to 512 Kbps

ATM/ADSL
- ATM signaling: UNI3.0, 3.1 and 4.0
- ATM traffic shaping: UBR, CBR, VBR

Built-in Wireless LAN

Wireless LAN Standards
- 802.11b, 802.11b+, 802.11g

Data Rates
- 802.11g: up to 54Mbps (6/9/12/18/24/36/48/54Mbps)
- 802.11b: up to 22Mbps
- 802.11b: up to 11Mbps (1.25/5.5/11Mbps)
- Auto-switch to select 802.11g or 802.11b mode
- Data rate auto fall-back under noisy environment or longer range distance

Transmission Technology

DSSS

RF Frequency Range
2.4 to 2.4835GHz

Operating Channels
- 1 to 11 channels (North America)
- 1 to 13 channels (General Europe)

Data Modulation Type
- 802.11g: BPSK, QPSK, 16-QAM, 64-QAM, OFDM
- 802.11b, 802.11b+: DBPSK, DQPSK, DSSS, CCK, PBCC

Antennas
- 1 detachable external dipole antenna, 2dBi Gain (reverse SMA connector)

To select the router with built-in ADSL modem that works best with your service provider, please consult your nearest D-Link representative or distributor/reseller.

Specifications subject to change without notice.

Wireless LAN Security
- Wi-Fi™ WPA

Physical & Environmental

Power Input
Through 12VAC 1.2A external power adapter

Dimensions
180 x 141 x 30 mm (device only)

Weight
380 grams (device only)

Operating Temperature
0° to 40°C

Storage Temperature
-20° to 70°C

Operating Humidity
5% to 95% non-condensing

Emission (EMC/EMI)
-FCC Part 15 Class B
-CE Class B

Safety
CSA International (CSA950, EN60950, IEC60950, UL1950)
